## **SECTION 1. IN GENERAL**

No sign shall be erected, reconstructed, repaired, maintained or used after the effective date of this ordinance unless such erection, reconstruction, repairs, maintenance or use meets all the provisions of this or any other applicable ordinance adopted by the City Council of the City of Boerne, Texas.

## **SECTION 2. PURPOSE**

The City Council finds that to protect the health, safety, property and welfare of the public it is necessary to prevent the unregulated proliferation of signs while at the same time respecting the public's right to freely engage in constitutionally protected speech. The purpose of these rules and regulations is to provide uniform sign standards and regulations in order to improve pedestrian and traffic visual safety, to provide for safe construction, location, erection, and maintenance of signs, to prevent proliferation of unauthorized signs, to minimize the possible adverse effect of visual clutter on nearby public and private property, and to promote a positive City image reflecting order, harmony and pride, thereby strengthening the economic stability of Boerne's commercial, cultural, historical and residential areas.

## **SECTION 3. DESIGN GUIDELINES**

It is the policy of the City to encourage signage which is appropriate to the Hill Country setting and the rural scale of the city, and to discourage signs which are in conflict with the established character of the community. To this end, all sign owners are encouraged to conform to the following guidelines for sign location, configuration, design and materials.

- A. Signs should be located with sensitivity to preserving the natural landscape and environment. Signs should be incidental complements to the principal use of a site, and should never be allowed to visually dominate a site.
- B. The height, width and area of a sign should all be in proportion to the dimensions of a building to which the sign is attached and in architectural harmony with surrounding structures. Sign dimensions should respect the size, scale and mass of a building facade, the height of the building, and the rhythms and sizes of window and door openings.
- C. No sign should be placed upon a building or structure in any manner which would disfigure, damage or conceal any window opening, door, or significant architectural feature or detail of the building.
- D. Sign materials should be predominantly natural, such as native stone, rough cedar, pine or other types of wood, metal, or materials that simulate natural materials.

## **SECTION 4. JURISDICTION**

The provisions of this ordinance shall apply within the City Limits and within the extra-territorial jurisdiction (ETJ) of the City as defined by state law.

## SECTION 5. DEFINITIONS

Words and phrases used in this ordinance shall have the meanings set forth in this section. For the convenience of the reader, these defined words and phrases are indicated by **bold print**, but the absence of such indications does not imply a different meaning. Words and phrases which are not defined in this ordinance but are defined in the Zoning Ordinance of the City of Boerne shall be given the meanings set forth in the Zoning Ordinance. Other words and phrases shall be given their common, ordinary meaning unless the context clearly requires otherwise. Headings and captions are for reference purposes only, and shall not be used in the interpretation of this ordinance.

### A. General Definitions.

**Area:** As applied to any sign, the square foot area enclosed by the perimeter of the sign face with each face contributing to the aggregate area. The area to be measured encompasses the extreme limits of the writing, representation, emblem or other display together with any material or color forming an integral part of the background of the display or used to differentiate the sign material from the backdrop or structure against which the sign is placed, but excludes any sign supports or supporting framework, and any finials, decorations or scrollwork entirely outside the area of substantive sign content. In cases where a sign, or a portion of a sign, is composed only of letters, figures, or other characters standing against no sign face background or secured to a monolith, then the sign face area is the area of the smallest simple imaginary figure (circle, triangle, rectangle, or other) which fully contains the sign content. The area of a sign with more than one face is the sum of the areas of all sign faces visible from any one point. However, a sign structure with two (2) faces back-to-back, oriented in opposite directions, with the same copy on both sides, shall be counted only as the area of one face.

Any person, business or other organization desiring to continue in use, locate, construct or otherwise place any sign which does not conform to the provisions of this ordinance may make application to the City Council for a variance to continue in use, locate, construct or otherwise place such a sign. The application shall be filed with the **City Manager**, accompanied by the appropriate fee established by City Council and by a drawing or sketch in sufficient detail to determine the location and type of construction for the proposed sign. Upon receipt of a completed application accompanied by the requisite fee(s), the City Council, upon the recommendation of the Landmark Commission, if applicable, shall approve or deny said variance within thirty (30) days of receipt thereof.

### **B. Conditions of Variances.**

The City Council may impose such conditions or requirements in a variance as are necessary in the City Council's judgment to protect the overall character of the community and to achieve the fundamental purposes of this ordinance. A violation of such conditions or requirements shall constitute a violation of this ordinance. If a variance is granted and the sign so authorized is not substantially under construction within six months of the date of approval of the variance, the variance shall lapse and become of no force or effect.

## **SECTION 17. RELATION TO OTHER ORDINANCES**

Wherever by the provisions of this ordinance the performance of any act is required or the performance of any act is prohibited, or wherever any regulation, dimension or limitation is imposed on the location, design or use of any sign, a failure to comply with the provisions of this ordinance shall constitute a violation of this ordinance. The **City Manager** may institute any appropriate action or proceedings to prevent the unlawful erection, construction, reconstruction, relocation, alteration, repair or use of any sign, and to restrain, correct or abate such violation. Every day on which a violation exists shall constitute a separate violation and a separate offense. The penalty for each offense shall not exceed one thousand dollars (\$1,000.00).
